# STOMA CARE PRODUCTS AND SOLUTIONS

A complete guide to our comprehensive range of colostomy, ileostomy, urostomy and accessory products

Recognising Salts research into healthy stoma skin

DERMATOLOGICALLY ACCREDITED

**WESTECH**  
HEALTH CARE LTD.

 **salts**  
HEALTHCARE

One of the founders of ostomy care products, Salts Healthcare is a family-owned company that has been in business since 1701.

With unique and cutting-edge skin-friendly technology, they are the first ostomy care company to receive recognition by the British Skin Foundation for their research into hydrocolloids; and are also dermatologically accredited by the Skin Health Alliance.

By bringing family values into everything they do, they've earned a reputation for producing innovative and user-friendly products that improve lives.

Westech Health Care Ltd shares Salts Healthcare's values and is proud to distribute Salts Healthcare products in Canada.

# SHARING SKIN CREDENTIALS WITH THE WORLD'S BEST BRANDS

DERMATOLOGICALLY  
ACCREDITED

Recognising Salts research  
into healthy stoma skin

## Protecting skin. It's in our nature

Our research into skin-friendly hydrocolloids is one of the reasons we've achieved recognition from the Skin Health Alliance. The SHA is the 'leading international skin health authority, working closely with dermatologists, researchers and skin scientists' around the globe.

The SHA awards its dermatological accreditation mark to products and services where scientific and clinical research achieves, or surpasses, its stringent skin safety criteria.

**This accreditation puts Salts products among some of the leading skin-friendly brands in the world, such as Olay, Bio-Oil®, Carex, Neutrogena® and Pampers®.**

## Naturally better for skin

Salts Healthcare was the first, and is still the only, ostomy manufacturer to receive recognition from the British Skin Foundation for our skin-friendly hydrocolloids. As one of the UK's leading supporters of skin disease research, the BSF independently reviews companies to ensure their products are not detrimental to skin health.

**Its support puts us in the company of some of the world's most respected skincare brands, including Bio-Oil®, Boots, Garnier and sk:n, who, like Salts, also use Aloe Vera in their products.**

Every one of our best selling products\* featuring the Flexifit® wafer is infused with extracts of Aloe Vera, providing a natural way that may help to soothe and protect skin around the stoma.

Since the ancient Egyptians and Chinese first discovered this powerful plant thousands of years ago, it has become well known for its moisturising and healing properties.

The addition of Aloe Vera in our hydrocolloids is important as it acts as a humectant, which helps to moderate skin hydration.

\*Except Confidence® Comfort Flexifit® Neonatal and Paediatric wafers.

# CONFIDENCE<sup>®</sup> NATURAL ADVANCE

Confidence<sup>®</sup> Natural Advance features our new superior adhesion hydrocolloid that sticks faster, stronger and longer, for improved security and less chance of leaks. The unique five-sided Flexifit<sup>®</sup> wafer is designed to give the perfect fit. Plus, the wafer is infused with extracts of Aloe Vera, which may help to soothe and protect your skin. In addition, the new two-colour release film features a bold blue cutting guide, which makes it easier if you choose to cut your own bags.

## Features:

- The superior adhesion hydrocolloid has been developed to stick faster, stronger and for longer.
- Every Confidence<sup>®</sup> Natural Advance wafer is infused with extracts of Aloe Vera, providing a natural way that may help to soothe and protect the skin around your stoma.
- The unique five-sided Flexifit<sup>®</sup> wafer was developed to create the perfect fit, by bending and flexing with your body's natural contours to help reduce leaks and improve comfort.
- The two-colour release film, with bold blue cutting guide, makes it easier to cut your own bags.
- A bold blue release tab makes it easier to locate and remove the release film.
- Charcoal filter and internal film layer design help to minimise odour and pancaking by improving airflow.
- Soft beige cover with transparent overlap for easy viewing and positioning.

# CONFIDENCE® NATURAL SOFT CONVEX

With our softest, stickiest and most flexible soft convex wafer, Confidence® Natural Soft Convex has a range of special features designed to help soft convex wearers enjoy a better fit, a better feel and better quality of life, including a unique five-sided Flexifit® wafer to give the perfect fit. Plus, the wafer is infused with extracts of Aloe Vera, which may help to soothe and protect your skin.

## Features:

- The wafer's strong adhesive has been developed to stick fast and stay put for longer, improving security and helping reduce leaks. It features an incredibly soft convex insert, making Confidence® Natural Soft Convex incredibly flexible and comfortable.
- The unique five-sided Flexifit® wafer was developed to create the perfect fit, by bending and flexing with your body's natural contours to help reduce leaks and improve comfort.
- Every Confidence® Natural wafer is infused with extracts of Aloe Vera, providing a natural way that may help to soothe and protect the skin around your stoma.
- Soft belt loops, for extra security and comfort.
- Charcoal filter and internal film layer design help to minimise odour and pancaking by improving airflow.
- Soft beige cover with transparent overlap, for easy viewing and positioning.

# CONFIDENCE<sup>®</sup> CONVEX SUPERSOFT

---

For those who require it, Confidence<sup>®</sup> Convex Supersoft offers a slightly firmer level of convexity than our popular Confidence<sup>®</sup> Natural Soft Convex product.

## Features:

- Comfortable and flexible wafer with gentle convex insert.
- Belt loops for extra security.
- Soft beige cover with transparent overlap, for easy viewing and positioning.

# HARMONY® DUO WITH FLEXIFIT® AND ALOE

Harmony® Duo with Flexifit® and Aloe is a popular choice for those who enjoy the convenience of a two-piece system with the discretion of a one-piece. The stick-together range includes our unique Flexifit® wafer which is infused with extracts of Aloe Vera.

## STANDARD WAFER

with Flexifit® and  
Aloe extracts

## FLEXIBLE WAFER

with hydrocolloid  
surround, Flexifit®  
and Aloe extracts

## CONVEX WAFER

with Flexifit® and  
Aloe extracts

## Wafer features:

- The unique five-sided Flexifit® wafer was developed to create the perfect fit, by bending and flexing with your body's natural contours to help reduce leaks and improve comfort.
- Every Harmony® Duo wafer is infused with extracts of Aloe Vera, providing a natural way that may help to soothe and protect the skin around your stoma.
- Easy-to-apply stick-together system with locator which matches up with a notch on the bag for accurate positioning.
- Available with hydrocolloid surround option.
- Flat wafer available with hydrocolloid surround for extra security.
- Convex wafer available with comfortable and gentle convex insert and belt loops.

## Bag features:

- Notch on the bag matches up with the locator on the wafer, for an easy-to-apply, stick-together system.
- Soft beige opaque cover.

# CONFIDENCE<sup>®</sup> COMFORT NEONATAL/ PAEDIATRIC WITH FLEXIFIT<sup>®</sup>

Confidence<sup>®</sup> Comfort Neonatal/Paediatric with Flexifit<sup>®</sup> is the perfect choice for tiny babies, toddlers or older children. Available in Neonatal or Paediatric sizes, it features a unique 6-sided Flexifit<sup>®</sup> wafer designed to fit snugly to a child's natural contours. It stays in place, helping to reduce leaks and irritation, even as they wriggle and move around. To help protect baby's delicate young skin, there's a skin-friendly hydrocolloid that is gentle on little bodies.

## Features:

- Available in Neonatal or Paediatric sizes.
- The unique six-sided Flexifit<sup>®</sup> wafer bends and flexes with the child or baby's movements, and the oval shape allows drainage to the side if the child is lying down.
- 'No hole' options available to cut your own shaped hole into the wafer for flexible positioning.
- Soft and easy-to-clean outlet rolls up to secure closure with hook-and-loop wings.
- Soft beige transparent overlap for easy viewing and positioning or transparent options available.

# CONFIDENCE<sup>®</sup> NATURAL ADVANCE

Confidence<sup>®</sup> Natural Advance features our new superior adhesion hydrocolloid that sticks faster, stronger and longer, for improved security and less chance of leaks. The unique five-sided Flexifit<sup>®</sup> wafer is designed to give the perfect fit. Plus, the wafer is infused with extracts of Aloe Vera, which may help to soothe and protect your skin. In addition, the new two-colour release film features a bold blue cutting guide, which makes it easier if you choose to cut your own bags.

## Features:

- The superior adhesion hydrocolloid is a urostomy-specific formulation that has been developed to stick faster, stronger and for longer by resisting large amounts of fluid and improving wear-time.
- Every Confidence<sup>®</sup> Natural Advance wafer is infused with extracts of Aloe Vera, providing a natural way that may help to soothe and protect the skin around your stoma.
- The unique five-sided Flexifit<sup>®</sup> wafer was developed to create the perfect fit, by bending and flexing with your body's natural contours to help reduce leaks and improve comfort.
- The two-colour release film, with bold blue cutting guide, makes it easier to cut your own bags.
- A bold blue release tab makes it easier to locate and remove the release film.
- The hard tap with easy to use 'on/off' opening is ideal if you have poor dexterity.
- Soft beige cover with transparent overlap for easy viewing and positioning.

# CONFIDENCE<sup>®</sup> WOUND AND FISTULA POUCH with FLEXIFIT<sup>®</sup>

(non-sterile)

A unique wound management product with many innovative features. Our small bag is available with horizontal or vertical wafers, depending on the wound or fistula position. Our medium bag has a long, narrow-shaped wafer to fit perfectly between other pouches or dressings – ideal for open (non-sterile) mid-line incisional wounds. All products benefit from our unique Flexifit<sup>®</sup> wafer, which helps to achieve the perfect fit.

## Features:

- This 1-piece drainable product, available in three different sizes, is suitable for a variety of fistulas and wounds.
- The unique Flexifit<sup>®</sup> wafer is only 1mm thick. Its six slits create flexible compression zones for a closer fit, which is ideal for challenging, uneven surfaces.
- The woundcare adhesive has been specifically formulated to resist breakdown.
- Our bags can cater for low to medium exudate and come with odour-resistant films.
- We only use skin-friendly hydrocolloids, research into which is recognised by the British Skin Foundation, and dermatologically accredited by the Skin Health Alliance.
- The non-return valve and wide-bore spout outlet allows even thick exudate to drain.
- Continuous drainage can be attached internally or externally to the outlet spout.

## CONFIDENCE® WOUND AND FISTULA POUCH with FLEXIFIT® (non-sterile)

<b>SMALL</b> – Vertical wounds up to 40mm wide and 60mm high	CWM02	10
<b>MEDIUM</b> – Vertical wounds up to 53mm wide and 150mm high	CWM03	10

# SALTS MOULDABLE SEALS WITH ALOE

Salts Mouldable Seals with Aloe are extremely mouldable seals. They help to prevent leaks that cause sore skin by moulding to the exact shape and size of your stoma. Following the contours of the abdomen to help create a customised, comfortable, leak-resistant seal, Salts Mouldable Seals with Aloe are infused with extracts of Aloe Vera to create a skin-friendly seal that may help protect the skin from redness and irritation.

## SALTS MOULDABLE SEALS WITH ALOE

# SALTS MOULDABLE SEALS

Salts Mouldable Seals are extremely mouldable rings that help to prevent leaks by moulding to the exact shape and size of your stoma. They follow the contours of the abdomen to help create a customised, comfortable and leak-resistant seal. The skin-friendly formulation helps to protect the skin from redness and irritation. By helping to extend wear-time, Salts Mouldable Seals are ideal for people living with an ileostomy or urostomy.

# SALTS ALOE RINGS

Salts Aloe Rings are skin-friendly, thin and flexible hydrocolloid rings. They can be stretched to accommodate moderately oval stomas and retain their shape for a secure, comfortable fit. Infused with extracts of Aloe Vera, Salts Aloe Rings may help to soothe, moisturise and protect peristomal skin.

# SALTS STOMA COLLAR

This innovative stoma collar provides a leak-proof barrier around the base of the stoma. The protective collar can help to give your stoma direction and more shape, resulting in a better spout that points directly into the bag, helping to prevent output from coming into contact with the skin. Ideal for all round-shaped stoma types, the thin and flexible collar is made of an extremely soft material that twists and turns with the movement of your body.

## SALTS STOMA COLLAR

# SALTS FLANGE EXTENDER

When experiencing difficulties with the adhesion of your bag, Salts Flange Extender with Aloe can provide a simple and effective solution. These thin, skin-friendly hydrocolloid strips are easy to apply and help secure the edges of your wafer, giving you added security wherever you need it. And, with added extracts of Aloe Vera, Salts Flange Extender with Aloe may help to protect the delicate skin around your stoma. Also available in a non-Aloe Vera option.

# SALTS ADHESIVE REMOVER

Salts Adhesive Remover effectively removes residue and refreshes, helping to leave skin clean and adhesive-free. Containing a non-sting formula with a natural peppermint fragrance, Salts Adhesive Remover helps to mask odour, leaving you feeling fresh after every change. Available in a spray or wipe.

## SALTS ADHESIVE REMOVER

50ml	WAPX	1
Wipes	WA1	30 sachets

# SALTS BARRIER FILM

Leakage and trauma caused by the constant changing of a bag can lead to sore skin. Salts Barrier Film is specifically designed to leave a gentle, protective film on the skin immediately around the stoma. It can help to protect the skin against leakages, prevent sore skin due to frequent bag changes, and perspiration penetrating the adhesive. Apply to clean skin and allow to dry before bag application. Available in a wipe or foam applicator.

# SALTS NO-STING STOMA PASTE

Salts No-Sting Stoma Paste helps to provide an ideal surface for your bag to adhere to, by filling any dips or creases to help prevent leaks. And, as it's alcohol-free, Salts skin-friendly No-Sting Stoma Paste has none of the stinging associated with traditional pastes.

SALTS NO-STING STOMA PASTE		
SIZE	ORDER CODE	QUANTITY
60g	NSP1	1

# SALTS STOMA PASTE

Stoma Paste has been specifically designed to be used as an effective filler where there is scar tissue or gaps around the stoma. Stoma Paste is easy to use and, once applied, can be spread into position, providing an ideal surface for appliances to adhere to.

60g	SP60	1

# SALTS ODOUR ELIMINATING SPRAY

Unlike many other air fresheners and deodorisers, Salts Odour Eliminating Spray doesn't just mask unpleasant smells with perfume, but attacks and destroys the odour molecules completely, so the odour can't come back.

- Eliminates odour – it really does work!
- Odours are eliminated at a molecular level.
- Not just another masking or neutralising spray.
- Non-toxic, non-hazardous and non-flammable.
- Environmentally friendly.
- Non-allergenic.

Salts Odour Eliminating Spray is effective and easy to use. During pouch changes, Salts Odour Eliminating Spray is simply sprayed once or twice into the air around the pouch.

- Lightweight and a handy size.
- Can be used safely in confined spaces.
- Will not harm skin surfaces or fabrics.
- A hint of peppermint.

## SALTS ODOUR ELIMINATING SPRAY

SIZE	ORDER CODE	QUANTITY
50ml	FA1	1

# SALTS PROTECTIVE WAFERS

An allergic or undesirable reaction to an adhesive used on a particular appliance may be the cause of sore skin.

Indeed, the adhesive itself may not even be strong enough to fully secure the appliance.

- Non-irritating and suitable for sensitive skin.
- Thinner than other leading brands, for maximum discretion.
- Easy to cut and simple to apply.
- Promotes healing when used on broken skin.
- Flexible and soft, for added comfort.

Protective Wafers are specifically designed to help prevent soreness and increase adhesion. Salts' hydrocolloid wafers provide an ideal environment to promote healing of sore or broken skin – and then help prevent the condition from reoccurring.

## SALTS PROTECTIVE WAFERS

SIZE	ORDER CODES	QUANTITY

15cm x 15cm	PW1515	5

# SALTS NO-ROMA

Unpleasant odour escaping from an appliance can be very embarrassing. No-Roma, the easy-to-use pouch deodorant, is specifically designed to prevent this situation from occurring.

- Kills the odour-producing bacteria.
- Available in two sizes – pocket size is ideal to carry around.
- Completely odourless.
- Lasting results.

Unlike other products, No-Roma works by actually killing the bacteria that produce the odour, rather than just simply masking it with perfume. It is also very simple to use. When changing an appliance, a drop of No-Roma is placed inside the bag (not on the stoma itself) to prevent the build-up of odour.

No-Roma can be used with any appliance, and is available in a small bottle, making it ideal to discreetly carry around.

# SALTS SKIN LOTION

Skin irritation and soreness can be uncomfortable and distressing. Salts Skin Lotion doesn't contain alcohol, so it can be used on sore skin without stinging. Quick and easy-to-use, simply apply it to a dry wipe and dab onto the affected area. It isn't greasy and helps the bag to adhere better to the skin when fully dry. Suitable for use around any stoma type, under any type of appliance.
