# LONG-TERM CARE & HOME CARE BEDS

Manufactured in Canada 

Innovative and high quality, our care beds are sturdy yet flexible. For home care or long-term care, they are designed to ensure ease of use and maintenance, in addition to great autonomy for users.

## The MultiPosition articulated bed

The MultiPositions adjustable bed is a perfect compromise between functionality and everyday comfort, it is specially designed for home support.

## The MultiTech articulated bed

The MultiTech R medical bed is designed to meet the reality of care provided in seniors' residences (RPA), intermediate residences (RI) and at home.

## The VariTech articulated bed

A leader in bariatric beds for long-term or home care, the VariTech is designed to make life easier for people with large builds or who want more space and comfort.

## Your Comfort. Our Concern.

The World's first and only wearable  
wound management garment  
specifically designed for people living  
with **Hidradenitis Suppurativa (HS)**

**HidraWear is the world's first and only Hidradenitis Suppurativa (HS) specific wound dressing system**, intended for use by people with wounds in difficult to dress areas of the body, such as the armpit, buttocks & groin.

The system is made up of three parts:

1 Body Conforming  
Garment

2 Wound Dressing &  
External Fasteners

3 Targeted  
Treatment Area

## Ventopedic – A Solution to Skin Integrity Maintenance

The entire Ventopedic product line is built around an effective moisture transport technology system aimed at maintaining skin integrity on a variety of body parts. Structured around fabric functionality, the Ventopedic products are designed to effectively draw moisture away from the skin while the 3 dimensional interior found in every product controls and /or eliminates any moisture absorption. The continuous airflow ventilation inside each product allows it to keep dry even in the highest levels of humidity.

## *Reasons why Ventopedic products need to be considered when dealing with patient skin integrity issues*

- will draw moisture away from the skin
- will not absorb moisture
- will remain dry and comfortable
- will allow for faster drying times
- will provide a soft cushioning support against the skin
- will not loose their effectiveness
- do not require assembly
- do not contain Latex
- are machine washable and dryable
- when properly washed, can be re-used

Integrity | Trust | Honesty | Knowledge | Respect
