STRONGBACK 24

FEATURES

Ergonomic

- Curved back supports the natural lumbar curve of the spine
- Seat angle aligns the pelvis for proper posture
- Ergonomic comfort grip handles
- Easy grip, swing-away footrests

Lightweight

- Among the lightest chairs of their kind
- 19-26 lbs or 9 to 13 kg, depending on model
- Compact, foldable design
- Easily fits into the trunk of your car

Comfortable

- Supports the lumbar curve of your spine, thus decreasing pressure on the spinal discs
- Reduces pressure on discs and coccyx
- Seat angle prevents slipping and slouching forward, improves user stability, and reduces seat shear on sensitive pressure points of the buttocks
- 1.2 "/3 cm seat cushion for added comfort

Stylish

Beautifully curved lines and attention to detail make this chair the new standard of comfort and design.

Swing-Away Detachable Footrests

- Footrests can be moved from in front of the chair for ease of entry and exit.
- Footrest can be easily removed entirely.
- Swing-Away feature allows close access to toilet for easy transfers

Adjustable

- Velcro adjustable back flaps allow the user to easily adjust the location and firmness of lumbar support
- No need for bulky cushions and other support structures

Available in three frame sizes (except on the Excursion8)

Seat Width options of 16" and 18" and 20"

Durable - Weight Capacity: **300** lbs. (136 kg)

Most models available with attendant brakes
