

M2 Multi-Tip Big

Electrical height adjustable shower/
commode chair in stainless steel with
el-tip function and user weight up to
200 kg

M2 Multi-Tip Big

M2 Multi-Tip Big can handle users up to 200 kg

With our M2 Multi-Tip Big there is room for most users. It can handle a user weight up to 200 kg and has 54 cm between the armrests.

The armrests are fitted with soft PU foam and snap lock.

The features are the same with our normal M2 Multi-Tip, which has a user weight of up to 150 kg.

The shower/commode chair of tomorrow

M2 Multi-tip is a unique shower/commode chair, made to fulfil the demands of the future

The electric adjustment of the height is independent from the tip function. This enables to achieve the right working position and improves the working environment for the helper.

The horizontal seat height can be adjusted from 55 to 101 cm, and the seat angle can be tipped 5° forward and 35° backwards, by using the hand control.

It is possible to check the remaining power at the battery symbols at the top of the hand control. When charging, the power symbol flashes until the battery is fully charged, with a constant light.

The M2 Multi-Tip Big is equipped with a closed, waterproof electrical system. The power plug can be found under the cover at the front of the chair and plugged directly into the power outlet - without the use of an external charger.

Working enviroment

M2 Multi-tip is the right choice, if you want to improve the helpers working environment

The chair can be adjusted independently in seat height and tip function. This gives the best opportunity to place the user in the correct position.

This gives a better working position for the helper, and more dignity for the user.

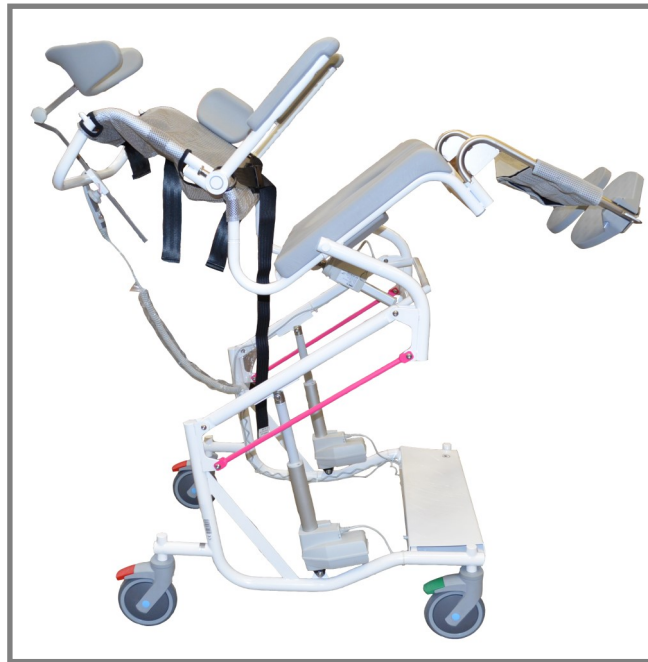

As standard, one of the wheels is a directional fixed wheel (green).

This will ease the manoeuvring and secure the working environment for the helper.

Better care

Provide a better and more dignified care for the elderly and disabled with the M2 Multi-Tip

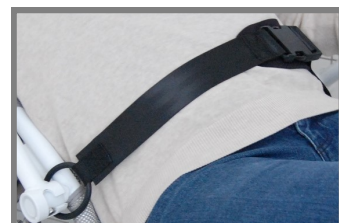

With a low entering height at just 55 cm, the users who have the strength can sit down themselves and are not forced to use a lift.

The electric height and tip function is stepless and independently adjustable.

The adjustable backrest ensures optimal support and the wide range of accessories ensures a pleasant experience.

As standard equipment, you will receive a comfortable hipstrap for safety and it gives the user a good sense of security.

Accessories

M2 Multi-Tip Big can be supplied with a wide range of accessories.

Footrests:
Reinforced: Art. no.: 310275

Height adjustable footrests for M2 XXL models

With one grip they can either be pushed aside or the footplates can be folded to a vertical position.

You can adjust the height with the help of a clip in 7 different positions.

They are reinforced to handle the increased user weight and are still easy to operate.

Footrests with heel straps
Art. no.: 310285

Footrests with heel straps

Height adjustable footrests with heel straps that prevent the users feet from sliding when tilting the chair.

With heel straps the footrests can still be pushed aside.

Calf support Wide
Art. no.: 310233

Calf support Wide

The calf support is recommended for users whose legs have a tendency of falling backwards and off the footplates.

The calf support should always be used if the chair has a tilt function.

Accessories

Amputation supports

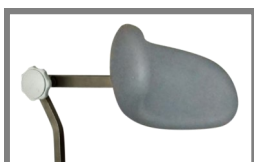

The amputation supports are easily adjusted by pressing a button and then setting the desired angle.

They can be combined with all of our other legrests and supports.

Amputation support, right, Art. no.: 800343

Amputation support, left, Art. no.: 310870

Head support in Supersoft foam
Height x width x depth adjustable
Art. no.: 310870

Head supports for M2 Multi-Tip

The user can safely lean back in the chair for full relaxation.

No matter which model you choose, you will get a safe and comfortable support.

Head support
Height x width x depth adjustable
Art. no.: 310871

Lid for horseshoe seat

If the chair is used for other than toilet function, you can easily put a lid on top of the seat. The lid is not included as standard equipment.

It's made of PU foam, which gives a soft and nice seat to sit on when you do not use the toilet function.

Lid for horseshoe seat
Art. no.: 310343

Accessories

Hipstrap (Black nylon with buckle)

For extra safety it's possible to mount a hipstrap.

The hipstrap is easily mounted on the frame and can be adjusted with a buckle.

Hipstrap with buckle
Art. no.: 800404

Bucket / Pan with lid, intimate

The intimate bucket offers both an ergonomic grip, and the possibility of cleaning up to 130 °.

The size and shape makes sure that the user will not hit the sides when going to the toilet.

The bucket is designed for our seats, therefore it will not drop backwards when using the tilt.

Bucket with lid, intimate
Art. no.: 310048

Standard seat for M2 200 kg, M2 300 kg and M2 300 kg Wide
Art no.: 310372

Standard seat for M2 200 kg, M2 300 kg and M2 300 kg Wide

The seat has a surface in cold foam, which is a flexible material that makes it soft and comfortable to sit on.

NB! It is not possible to get a lid for this seat.

Accessories

Urin funnel
Art. no.: 148861

Urin funnel

The urin funnel is made for people who have problems urinating into the toilet. It can help preventing the user from urinating on the floor or on the toilet seat.

The urin funnel is used by placing the narrow end facing down towards the toilet.

M2 Splash guard
Art. no.: 148862

Splash Guard

The splash guard is for people having trouble getting "the beam" directed down in the toilet / bucket.

It can alleviate the problem by spreading the legs to facilitate the possibility of lower hygiene.

The splash guard only fits on horseshoe seats.

NB! Does not fit the M2 300 kg Wide El-Tip

Side supports

When using side supports the user will get extra support for the entire body.

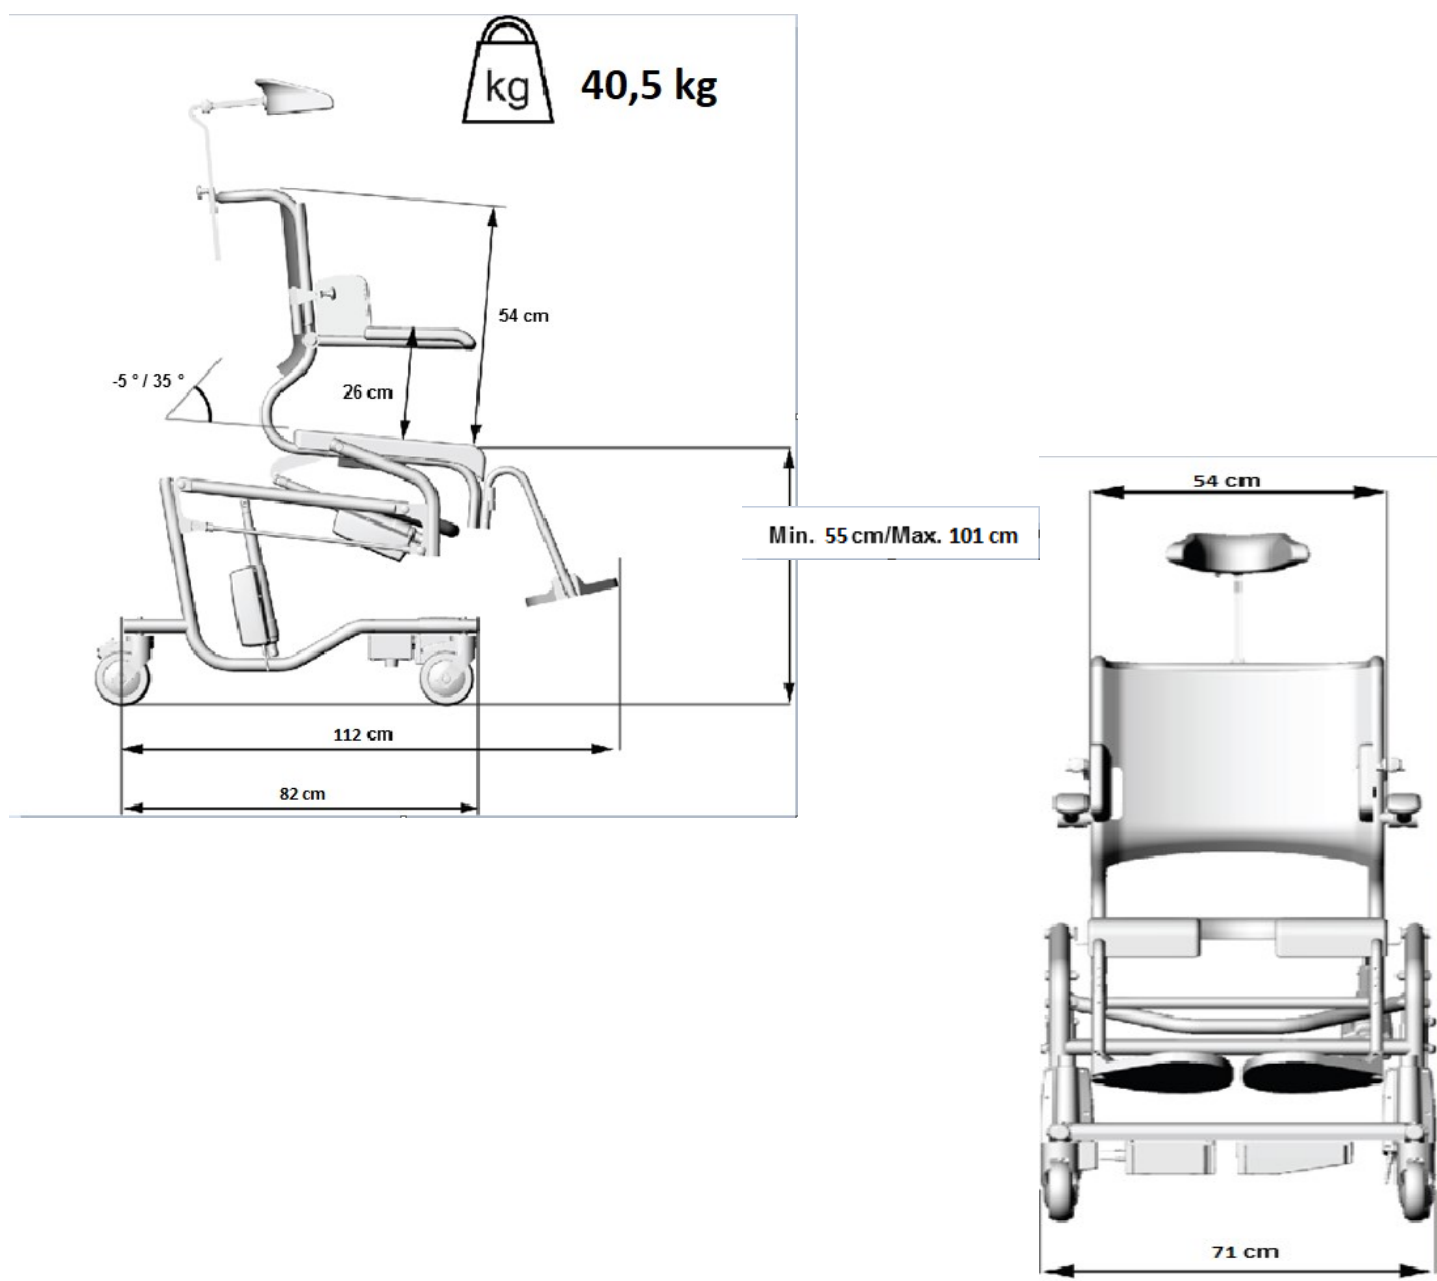

The side supports are pushed into the fixed holders without any use of tools.

Side supports (1 set), Art. no.: 310880
Right side support, Art. no.: 310881
Left side support, Art. no.: 310882
