

# VELA Tango 50

VELA Tango 50

VELA Tango 50 has a low backrest that supports your lower back and allows free movement of your back, shoulders and arms during various activities.

VELA Tango 50 is a basic and inexpensive work chair. It is developed to enable the user to keep the usual level of activity and independence at home and at the work place – despite disability. A unique central brake ensures that the user has a stable work place. This means, that working in the kitchen with knives or boiling water is safe. Four smoothly running and direction-stable wheels make the chair easy to ‘walk’.

VELA Tango 50 is a basic work chair from VELA particularly well suited for people with disabilities. The chair provides safety and stability during everyday activities at home, at the workplace or in rehabilitation.

The central brake and the stable armrests make it easier to get into and out of the chair. The user can lean on the armrest without moving the chair. This is a benefit to users who have problems regarding mobility or balance.

The chair has smoothly running wheels and plenty of room for the feet. This means that the user easily can ‘walk’ the chair while sitting down and move around without assistance.

Adjustment of the seat height and seat depth plus support from the backrests and armrests ensures the optimum conditions for an good sitting position. The seat height is adjusted with a gas spring, which makes this chair suited for users with a certain level of mobility.

## BENEFITS

- :: VELA Tango 50 is a stable and supporting work chair for everyday tasks, e.g. in the kitchen
- :: The stable frame and the central brake ensure safety when the user is getting into and out of the chair
- :: It is possible to ‘walk’ the chair while sitting down
- :: Good comfort and support ensure an optimum sitting position that facilitates activity and participation

All VELA chairs are CE-marked and comply with applicable standards.

VELA Tango comes as standard in black phoenix fabric, which is durable, breathable and very comfortable. VELA has its own upholstery workshop that always stocks more than 300 types of foams, textiles and colours. If there is a need for even more cleaning-friendly materials, VELA offers a large selection of artificial leather or the option of various seat covers.

### ACCESSORIES AND SPECIAL SOLUTIONS

VELA Tango 50 work chair can be configured with handles developed for people with arthritis in hands and fingers.

An arthrodesis split seat is an advantage for users with stiff hip joints or users with leg amputations. The position of the leg angle in relation to the seat can be adjusted independently of each other.

Read more about VELA or find item numbers, photos and descriptions at [www.vela.eu](http://www.vela.eu).

### WORK ENVIRONMENT

- :: Height adjustment of the seat improves the work position for assistants, e.g. when the user needs assistance at meals or when getting dressed.
- :: The height adjustment means that the user can be placed high up and easily be placed at the same level as a bed or a chair for easy and safe transfer.
- :: The height-adjustable push handle eases the work if the user has to be moved.
